

HAND TORCHES

Hand Torches

Hand torches have greatly improved in the last decade. With reliable LED technology it is possible to incorporate powerful beams into much smaller torches. However, LED technology isn't simple. We have tested torches that completely failed after relatively short periods, some LEDs cause radio interference, others start flickering. We hope that the ones we have listed will provide you with long-lasting and impressive service. Sadly, there is no magic involved. More Lumens means more energy and a shorter battery life, although improvements in batteries is helping here. You will need to decide when you are most likely to need a torch and what for. Sometimes a dull torch is better if you need to illuminate a working drawing, script or map as it will help to preserve your night vision. If you are on event security patrol a really powerful beam will help. You need to decide if you will carry it on your belt or in your pocket? Do you really need a strobe? Hopefully, you will find your perfect torch here.

P4BM	High output white	LEDP4C	£32.50	£21.29

It's powerful!

37 Lumens

Maglite® Solitaire LED Using just one AAA battery, the Solitaire is a smaller and lighter option than the P4BM above. It is really a key ring torch but makes a great small inspection torch too. It also whacks out an impressive 37 lumens. The catch is the battery life is correspondingly lower. Black.

1 x AAA. Dimensions: 81 x 12.7 mm. Beam length: 61 m. Battery duration 1 hr 30 mins. Weight: 24 g.

☐ Supplied with: batteries and key holder.
