HAUSSMANN'S MAGNETIC PAINT

Hausmann's Magnetic Paint [Blue] Highly flexible, this magnetic paint can be used on wallpaper and textiles, as well as plaster, masonry, concrete, gypsum board, and ceiling tiles, turning them into a magnetic surface. Water-based, with no smell and easy clean-up, it out-performs similar oil-based products. Highly effective after only two coats. Apply with a brush, roller or spray. Recoat after a minimum of 4 hours. After 24 hours apply your choice of top coat with no loss of the magnetic effect. Covers 8 - 12 m² per litre.

BLACKBOARD PAINTS

Rustin's Blackboard Black A quick drying water-based non-reflective acrylic paint for blackboards and photographic work. Conforms to Toy Safety regulations. Suitable for interior and exterior use. I have used this paint onto a gloss painted exterior notice board and every day it gets written on with liquid chalk marker pen and then cleaned with a hard scrub at the end of the day. I thought it would last a couple of weeks but 6 months later it looks as good as new! Brilliant tough paint. Covers 12 m² per litre.

2.5 L	PAT1192	£30.13

PEELABLE MASKING PAINT

Peelable Masking Paint A unique system that will temporarily decorate or cover large structures and blank out signs internally and externally for up to 12 months. When it's time to uncover again, just peel away. A great masking tool. Use it to change the colour of vehicles, helicopters, road signs, shop fronts etc. on your film shoot. Paint over virtually any surface with this grey peelable paint, then paint it with Rosco or any scenic paint, or even apply texture such as Flints Mud. Once the shoot is over just peel the paint off and throw it away! No messy scrubbing machines or solvents. Works on most non-porous surfaces but not on coarse fabrics like serge etc. Works best on pre-painted surfaces but is also fine on bare timber. Always do a test area first. Dries in 140 mins. The 5 kg of paint covers up to 20 m².

- ✓ Camouflage that helicopter
- ✓ Eradicate incorrect road sign destinations
- ✓ Change shop fronts to match your film requirements
- ✓ Use it to mask tricky items prior to complex spray jobs
- ✓ Use it to protect bright-work from winter frosts – just peel it off in the spring!

SYNTHETIC RUBBER COATING

Plastidip Dip your ropes in Plastidip and there is no need to whip the ends. It leaves them rigid with a comfortable feel. Made from synthetic rubber it can also be used on metal, wood, glass, rubber, and fibre glass. Prevents corrosion, slip-proofs treads, seals clay pots, adds grip to tools. The clear Plastidip can be used to weatherproof paper maps. Can be peeled off non-porous surfaces. Air dries. Allow 30 minutes between coats, 4 hours minimum dry time before use. Clean brushes in Xylene or thinners [page 61]. Always wear a mask, even in the open air, and one that is suitable for organic vapours like our reusable respirator 3M 4251 on page 342. UN 1139. Now available in a new smaller size!
